

A Non-Profit Educational Corporation

Intermediate Water Supply Principles Course & Contact Hour Workshops

Dates: 7-Day Course July 13 - 21, 2026 or **5-Day Review July 13 - 17, 2026 or choose individual days based on your needs. **The 5-Day session is intended to be an exam review, NOT a 36-hour course. If you need a full course of instruction to meet certification/exam requirements, please register for the 7-day course or call the office at 916-640-2114 for more options.

Time: 8:00 a.m. to 4:00 p.m.

Location: 8801 Folsom Blvd., Suite 220, Sacramento, CA 95826

*OCT reserves the right to modify the schedule as necessary. Changes to the schedule will be communicated to all participants in a timely manner.

Class Info: Class credit is issued based on a combination of:
- Chapter quizzes, Feedback, Participation, and Attendance.

TUITION FEE SCHEDULE:

Small water system,
(serving a population of 10,000 or less)
\$140.00/day or \$910.00 all 7 days

Medium/Large water system,
(serving a population of 10,001 or more)
\$275.00/day or \$1820.00 all 7 days

Tuition must be paid prior to the first day of class. A 10% cancellation fee will be charged.

Class Schedule

July 13-14, 2026: 2-Day Water Distribution Operations - 14 Contact Hrs./1.4 CEUs

- This class is a condensed overview of potable water delivery throughout a typical community water distribution system from treated supply to residential and industrial user. Students will review the basic water distribution processes, equipment and methods to better prepare for common questions encountered on a water distribution operator certification examination.

July 15-16, 2026: 2-Day Water Distribution Math, Gr. 3-4 - 14 Contact Hrs./1.4 CEUs

- A scientific calculator is required for this math class.
- Operators will compute mid- to advanced-level problems using the step-by-step method. Process unit formulas, conversions, complex volumes and blending problems, chemical solution calculation, hydraulics and pressure, velocity and flushing formulas and calculations prepare operators for the complex mathematical calculations that may be encountered in daily operations.

July 17, 2026: Disinfection of Public Water Supply - 7 Contact Hrs./0.7 CEUs

- Students will study the subject of disinfection from a summary of Federal Drinking Water Regulations to Chlorine Safety. Student will learn to identify the properties of chlorine, dosage, demand and residual problems, breakpoint chlorination, disinfection by-products (THM's), alternative disinfectants together with liquid and gas chlorination practice problems.

July 20, 2026: Title 22/EPA Regulations - 7 Contact Hrs./0.7 CEUs

- Operators will evaluate MCLs, record keeping requirements, operational regulations and personnel legislation. Operators will interpret and apply these laws as they relate to all areas of the water industry in California. Students will also review a compilation of the most current regulations issued by Groundwater and Drinking water division of the EPA.

July 21, 2026: Sources, Wells & Surface Water/Groundwater Rule - 7 Contact Hrs./0.7 CEUs

- This class addresses water sources, the hydrologic cycle, water supply, water quality constituents, ground water, surface water, and water quality parameters.
